

More About Lushington Chiropractic . . .

Lushington Chiropractic is a highly successful, well-established, respected and commercially astute, multi-disciplinary clinic. We're based in Eastbourne, East Sussex on the south coast, which is about an hour from London and 45 minutes from Brighton by train or car.

OUR MISSION

Our mission is to provide a warm, welcoming clinic, which consistently delivers the best possible customer care, expert diagnosis and personalised healthcare, which is underpinned by our three core values: Community, Health and Success.

If you're thinking about working with us, then we'd love to hear from you. But first let us share a little more about what your future clinic is like:

QUALITY & ETHICAL TREATMENT

We are a highly ethical and motivated practice, having attained the highest quality marks from the RCC (PPQM & CMQM) as well as local awards for being "Best of Eastbourne for Customer Service". Last year we celebrated winning "Eastbourne's Business of the Year", due to our patients nominating us without us even knowing!

GENUINE CUSTOMER CARE

We genuinely care about our patients (we call them guests), which is why we don't need to resort to Groupon offers. In fact most of our patients are recommended by word of mouth. We also have excellent links with GPs and local surgeons, some of who are our patients. We believe in contributing to our local community and often help local fundraising activities. We raised over £5,000 for the local hospice with a bike ride from London to Eastbourne we organised for them. We also offer discounted/free care to ex-service personnel and we carry out free health and posture checks for local school children in return for donations to Barnardo's Children's Charity.

SUPPORTIVE & FUN TEAM

At Lushington, we're passionate about our teamwork. We have an excellent team of chiropractors, with decades of experience in a range of specialities who've helped over 10,000 local people. Most of our team live here in Eastbourne, so it's easy to socialise, exercise and have fun together.

MENTORING

I have been a registered RCC mentor/trainer for over a decade. As well as the RCC's PRTS structure we have a proven in-house mentoring programme to help you settle into practice. This is particularly useful for new graduates, if you've had your confidence knocked or want to grow your clinic really quickly. Not only will your clinical management ability improve but you'll develop your communication skills etc too. We also have a lovely team of chiropractors, who'll be happy to help with advice, practice technique and discussing cases.

SUCCESSFUL PRACTICE

We are looking for someone who cares about their patients, wants to be busy as part of an ethical practice. We have a strong patient base, great career structure and bonuses for someone making a long-term commitment (3-4 years).

We're also happy to discuss and personal needs you may to improve your work-life balance. Ideally we're looking for a full-time chiropractor but if you have another need just get in touch.

We are so sure you will do well with us that we are willing to offer a fixed retainer + a % based commission – if this sounds good, get in touch!

CALL NOW

For an informal, confidential chat call (or e-mail) James Revell, on 01323 722499 or drjrevell@hotmail.com

Warm regards,

James Revell DC, LRCC, MSc(Chiro), BSc(Chiro), BSc(Biol)

Doctor or Chiropractic and Clinic Director
